Submission Requirements for Sewage Disposal System Repairs

Repairs to existing septic systems must be submitted to this Department for review and approval. Repairs are limited to replacement or repair to existing system components. The person who will be performing the work is required to submit the permit. The permit must be signed by the homeowner. The permit must be approved prior to the start of any repair. The cost of the permit is \$50.00 and is payable to the "County of Gloucester" by check or money order.

- Provide a completed Form 1 and Form 4 (enclosed)
- Provide a sketch of the property showing the following features:
 - 1. Property lines
 - 2. All existing structures such as house, garage, pools etc.
 - 3. All existing sewage disposal system components. Provide distance of existing components to the house and property lines.
 - 4. Existing well or wells and distance to existing sewage disposal system components.
- Provide a survey of the property from the owner even if it is from the purchase of the property. If no survey can be found this office may consider waiver of this requirement.
- Provide a written explanation of the work that will be performed including what will be done with
 the existing sewage disposal system components. Include the number of bedrooms and if the
 system is a single family dwelling or a duplex. Provide contact information for the homeowner
 and the installer including name, phone numbers and mailing address.
- Provide all the details of the existing sewage disposal system. This would include the following items:
 - 1. If a seepage pit provide the diameter and depth of the seepage pit. The elevation below the ground surface the inlet pipe enters the seepage pit and the diameter of the inlet pipe.
 - 2. Provide the size of the septic tank and the material with which it is constructed.
 - 3. For a bed or trench system, provide the number of lines, length and width of the bed or trenches, and the depth of the bottom of the stone.

This office will research the request and determine if a repair is permissible. A site visit may be conducted to evaluate the existing site. If a repair permit is not issued, you will be directed to hire a Licensed Professional Engineer to design an alteration to the existing system that will be appropriate for the property.
